

UGC application master list - 4 Oct 2026

Built from 14 verified research slices (checked live 4 Oct 2026, 16:30-16:40 BST) plus the repo seed (ranked top-8 carryover). Verified programmes in this list: 140. Nothing was applied to; applications are yours to submit. Unverified, blocked, waitlist and closed leads are in the Appendix only, never in the verified table.

How to read this

- Ranked by what to apply to first: clear cash pay, low or no follower minimum, UK eligible, doable on a phone, under-18 friendly rank highest. The repo seed's top 8 keep their relative order (Growpins, GenieAI, Knowunity, UGC Agency, ThetaWave, Pallo, Influee, JoinBrands). New verified programmes are folded in around them.
- Lower in the list: commission-only, gifted-product, perk-only, region-locked (US/India/Australia only), follower-gated and one-off programmes. They are real and open but rarely pay a fee per video.
- Unspecified means the pages did not say. It never means under-18 OK or no follower minimum. 'Not stated' pay stays not stated.
- Phone-doable is my estimate from the route (web form, app or email = yes). The slices did not test this. Dates: Liliys cohort closes Thu 8 Oct 2026; Triplespeed (US only) expires 19 Oct 2026.
- Before accepting any brief: agree pay, usage rights, revisions, exclusivity and payout terms in writing. Guide rate on record: beginner UK 50-150 GBP per video, never under ~100 GBP for a custom brief, +30-50% for paid-ad usage rights.
- Presence on a verified list does not prove you personally qualify (age, audience, country, content history).

(a) Top 10 to do first

1. **Growpins** - \$200 per approved piece, no audience minimum, 2-3 day reply, you keep ownership.
2. **GenieAI** - \$260 per accepted video, screened on craft not followers; concept approved before you record.
3. **Knowunity** - Fixed fee per video, explicit under-18 OK (16-22), UK confirmed. Amount not listed.
4. **Ask Maeve** - Paid per video + bonuses, no following needed, 16-17s are a target group, UK route. Rate not published.
5. **Astra AI** - Paid test phase, no followers, under-18 OK with parent permission.
6. **Turbo AI** - \$20 up to \$2,000 per video, 16+ OK, UK listed. Needs 5 posts a week.
7. **The UGC Agency** - You set your rate (100-150 GBP for AI niche), no follower minimum, UK-friendly. 18+ per form.
8. **Billo** - Fixed payout shown per task, no audience needed, UK supported. 18+.
9. **ThetaWave** - Base per post + view bonuses. Base rate NOT published, so get it in writing first.
10. **Pallo** - UK is the target region. Rate unconfirmed (\$300/mo vs \$20 + CPM), so get it in writing.

Next best: Influee (11), JoinBrands (12), then Calori, Lindy, TapLab, re:act, Nonsensical, Wilgo, Lumi Humanizer.

Region and duplicate notes

- soona and Trend are one network, counted once. Billo, Cohley, Speekly, Insense, Twirl, JoinBrands, Influee, The UGC Agency appeared in both marketplace slices and are merged. CapCut UK Template, Ask Maeve, LilysAI, Knowunity, Lindy appeared in more than one slice and are merged (conflicting age statements are shown in the row).
- Slice authors note several fetched pages carried text aimed at AI agents; none of it was followed.
